DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings, as originally filed, are acceptable as formal.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 9 is rejected under 35 U.S.C. 102(b) as being anticipated by Crawford (1,633,806).

Crawford shows the claimed subject matter where a lubricating device (figure 1) is in the form of a rotating shaft (6) which has scoops (13) which splash lubricant so that the bearing is lubricated, the scoops having grooves (12) and the scoop tapers towards the tip (see figure 2 where the tip (11) is clearly tapered).

Claim Rejections - 35 USC § 102

Art Unit: 3682

5. Claims 1, 3, 5, and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Parker (6,484,846).

Parker shows the claimed subject matter where an eccentric shaft (piston journal (28)) has a lubricating device (figure 3) which has a metallic blade (86) mounted at the bottom and rotates with the eccentric shaft to supply lubrication to the parts to be lubricated, such as the piston crank bearing and the piston walls and the support journals for the eccentric shaft

Allowable Subject Matter

6. Claims 2, 4, 6, and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a).
